

ClickTif PC Online Dripper

A reliable solution for precise irrigation with great performance

ClickTif PC Online Dripper

- Offers excellent protection against clogging
- Available in PC and ND models
- Ideal for greenhouses, nurseries, orchards, vineyards and landscape applications

ClickTif - a reliable solution for precise irrigation with great performance

ClickTif is a reliable heavy-duty online dripper offering precise irrigation. It is designed for various applications, including greenhouses, nurseries, orchards, vineyards, and landscape applications. The ND (No Drain) model takes efficiency to the next level, ensuring pulse irrigation and optimal performance in soilless conditions, all while preventing surplus drainage in low-lying areas.

Structured for durability and performance, ClickTif is available in a wide range of dripper models and accessories, featuring four design elements to minimize clogging: a protected water inlet, a flushing mechanism for the regulating diaphragm, strong turbulent flow in the labyrinth for continual cleaning, and large water passages. Color-coded for easy identification, ClickTif offers a standard 5 mm tapered outlet for seamless connectivity with connectors or a barb outlet for 3/5 tube compatibility.

Crafted from chemical-resistant, high-grade plastic, ClickTif is durable even in harsh conditions. With two models available – PC and ND – each with unique features, ClickTif caters to diverse irrigation needs. The ND model's 'sharp edge' design prevents dirt accumulation, ensuring reliable operation even in challenging conditions.

Color Code

	Dripper cover color	Flow rate (l/h)
	Grey	1.3
	Brown	2.0
	Blue	3.0
	Black	4.0
	Green	8.0
	Red	12.0

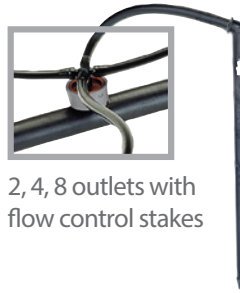

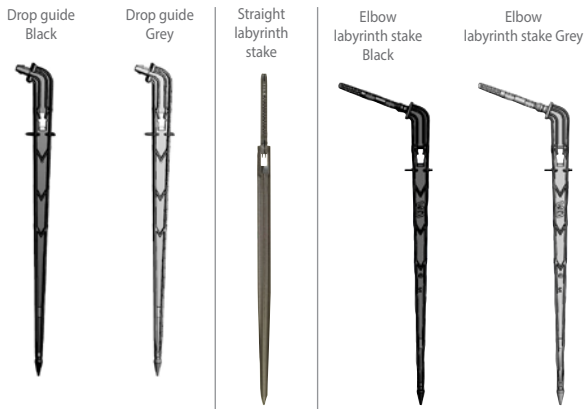

Technical data

	Nominal flow rate: 1.3, 2.0, 3.0, 4.0, 8.0, 12.0 l/h
--	---

	ND: Opening pressure: 8 m Closing pressure: 3 m Pressure regulating range: 0.5-3.5 bar Minimum recommended pressure: 1.0 bar
--	--

	Recommended Filtration: 130 microns
--	--

ClickTif Accessories

2, 4, 8 outlets with flow control stakes

3/5 PVC or PE extension tube stabilizer stake

Drop Guide

Use as single outlet for drop guide

Labyrinth Stakes

Working with multiple outlets:

1. Use labyrinth stakes to improve uniformity
2. Minimum recommended working pressure: 1 bar
3. Maximum recommended flow per outlet: 2.0 l/h

2.5 mm Punch

Special design for comfortable punching and inserting of ClickTif drippers

3/5 mm outlet connectors

	1 outlet
	2 outlets
	4 outlets

Multi-level connectors

	2 outlets
	4 outlets
